

# COVID-19/Coronavirus Services

## COVID-19 2019-NCOV NOVEL CORONAVIRUS

As the COVID-19 pandemic escalates, companies are challenged with how to best protect their employees while maintaining operations.

### You Find Yourself:

- Determining how to safely clean and disinfect your facility?
- Developing programs and policies to protect your workers and customers?
- Rapidly assembling communication plans and disease prevention guidance for your workforce?
- Dusting off out-of-date incident management and emergency response plans?
- Quickly crafting communications in a world where prevention measures change with the disease progression?

If so, partnering with Apex can help protect you and your company as quickly and effectively as possible.

### How Can We Help?

We can help you with a wide range of services including:

- COVID-19 cleaning and disinfection
- Baseline facility re-occupancy assessments
- Infectious agent control plans
- Infectious disease outbreak response plans
- Contamination protocol reviews
- Virtual home workstation ergonomic evaluations
- Tailored guidance communications
- Virtual health and safety training
- Personal protective equipment (PPE) consulting
- Process conformance evaluations
- Sampling and post-cleaning efficacy testing

### Why Apex?

We've assembled a best-in-class team of professionals. Our ready-to-deploy team with toxicology and public health backgrounds includes PhDs, Chemical and Biological Threat Mitigation Specialists, Certified Industrial Hygienists (CIHs), Certified Safety Professionals (CSPs), and experts with Masters degrees in Public Health (MPH and MSPH) degrees who are dedicated to addressing your coronavirus needs.

Our approaches are rooted in sound technical guidance and our team is closely monitoring regulatory standards and recommendations.

As one of the largest industrial hygiene firms in the country and a Top All-Environmental Firm, we have 30+ years of environmental excellence and offices nationwide ready to manage your coronavirus risk.
