

# Industrial Manufacturing Sector Expertise

Optimize the efficiency and performance of your industrial manufacturing assets, while protecting your people, your brand, and the environment.

At Apex, our deep understanding of the standards, permits, and regulations facing the industrial manufacturing industry can help you assess and prioritize your needs to minimize your risks, maintain workplace safety, and improve your productivity.

## Your Partner for Lifecycle Solutions

Our services are designed to support worker health and safety, water resources efficiency, environmental performance, corporate sustainability performance, and reporting from planning and design through procurement of components and equipment to construction and operation.

### Apex can help you

- **Manage risk** in your construction projects through safety assessments, environmental compliance, supervision and quality assurance.
- **Achieve consistent quality** by controlling your supply chain and processes.

- Reassure local stakeholders by demonstrating **EHS conformance and reporting on applicable sustainability metrics**.
- **Ensure a healthy and safe workforce and protect the environment** through sound EHS performance and management.
- **Optimize the efficiency** of your operations and maintenance activities.
- **Access certified expertise** (e.g., MSHA, hazardous materials, EHS conformance, sustainability networks, laboratory analysis, stormwater/wastewater management) throughout the United States.

## Representative EHS Solutions

- Environmental Site Assessments
- Hazardous Materials Management

- Monitoring Exposures to Agents of Concern
- Stormwater Management
- Wastewater Management

- Natural Resources Management
- EHS Systems Performance and Assurance
- Workplace Safety Solutions
- EHS Conformance Assessment, Monitoring & Reporting
- Risk Assessment and Treatment
- Compliance & Permit Services
- Due Diligence
- Remediation
- Facility Decommissioning and Redevelopment
- Geographic Information Systems and Data Management
- Contaminated Site Management Services
- Sustainability Reporting, Verification and Assurance
- Greenhouse Gas Emissions Management
- Legal Support and Expert Witness Services
- Laboratory Services
- Safety Culture and Behavioral Approaches

## Why Choose Apex

Whether you're seeking to gain an awareness of environmental risks and strengthen your capability across your enterprise or you simply need a quick and cost-effective remedial action for a one-time need, Apex can help.

Our technical skills, innovative approaches, and expertise—with specialties in health & safety, industrial hygiene, due diligence, site characterization and remediation, wastewater and stormwater, and environmental compliance—save our clients time and money.

We can help you define and mitigate risk, reduce operating costs, perform preventative measures, increase volume throughput, minimize production disruption, and overall be as environmentally-efficient as possible. Contact us and see what sets Apex apart from the rest.

## About Apex

Established in 1988, Apex is a national multidisciplinary consulting, engineering, and field services firm with a robust portfolio of capabilities in water resources, environmental services, health & safety, construction management, transportation, and compliance & assurance. Rated #16 as an *ENR* All-Environmental firm and #68 in the top 200 overall, we are known for our technical expertise, rapid response, operational integrity, and exceptional client satisfaction. We operate in all 50 states and maintain a highly capable and diverse team of scientists, engineers, technicians, and information management specialists.
