## CDP 2025: Navigating Environmental Disclosure and Submission Preparedness

### Navigating the Path to CDP Submission

As the CDP season approaches, companies worldwide are gearing up to meet the rigorous demands of environmental disclosure. The CDP 2025 portal opens June 16, 2025, and marks the beginning of the responses window. This period is crucial for organizations to collect, analyze, and ultimately disclose their environmental information and data. The CDP plays a pivotal role in driving transparency and accountability in corporate environmental practices, making it essential for companies to be well-prepared. At Apex Companies (Apex), we understand the complexities and challenges associated with CDP submissions and are dedicated to guiding our clients through this essential process.

### Understanding CDP and Its Importance

CDP is a global non-profit organization that drives companies and governments to reduce their greenhouse gas emissions, safeguard water resources, and protect forests. By participating in CDP, companies, including SMEs, can demonstrate their commitment to sustainability, enhance their reputation, and gain valuable insights into their environmental performance.

### Our Expertise in CDP Preparation

At Apex, we specialize in helping companies prepare for CDP submissions. Our team of experts brings a wealth of experience in environmental reporting, data management, and strategic planning. We offer a comprehensive suite of services designed to streamline the CDP submission process for our clients.

### Tailored Solutions for Every Client

We recognize that each company has unique needs and challenges. Our approach is highly personalized, focusing on the specific requirements of each client. Whether you're a seasoned participant or new to CDP, we provide tailored solutions that align with your sustainability goals and regulatory obligations.

### Key Services We Offer

**Data Collection and Analysis:** We assist in gathering and analyzing the necessary data, ensuring accuracy and completeness.

**Ongoing Gap Assessment:** As we collect and analyze the data and information needed for a CDP submission, our experts conduct an assessment to identify gaps in your current reporting practices and recommend improvements.

**Drafting and Submission Support:** From drafting responses to reviewing final submissions, we provide end-to-end support to ensure a seamless process.

**Assurance and Verification:** We offer assurance and verification services to ensure your data's accuracy and reliability. Our team performs thorough reviews and independent checks to maintain the highest standards of quality and compliance.

After CDP season, our team can support you by providing feedback and guidance on how to improve for next season.

**Strategy Development:** We help develop a sustainability strategy

that aligns with CDP requirements and aims to enhance your overall environmental performance.

**Addressing Gaps:** Our team can address the identified gaps so clients can disclose these updates in the next CDP reporting cycle.

**Training and Workshops:** We offer training sessions and workshops to educate your team on CDP processes and best practices.

### Why Choose Apex Companies?

Preparing for CDP submission can be a daunting task, but with the right support, it becomes an opportunity to showcase your commitment to sustainability and drive positive change. As an accredited solutions provider to CDP, Apex is dedicated to empowering our clients to navigate the complexities of CDP and achieve their sustainability goals.

Our team is composed of seasoned professionals with extensive knowledge of CDP requirements and sustainability practices. We pride ourselves on tailoring our services to meet the unique needs of each client, striving to ensure optimal results and a seamless experience. By offering ongoing

support and guidance, we help our clients stay ahead of evolving sustainability trends and regulations, empowering them to achieve their environmental goals and maintain compliance in a dynamic landscape. Our commitment to excellence and our personalized approach ensure that each client receives the highest level of service and expertise.

Partner with us to unlock the full potential of your environmental reporting.
